

Dinamo Zagreb coaching clinic was a great success. The PYL boys were treated to a week of intensive coaching by some of the best youth coaches in Europe. Zeljko Stincic took the keepers and worked them hard all week. Igor Cvitanovic, legendary Dinamo striker and youth coach together with Damir Ferencina worked with the field players giving the boys a taste of the standard of sessions and workrate they need to achieve.

The Dinamo coaches weren't here for a holiday, once again they are looking for youth players with potential in the older squads and keeping a close eye on the younger players. They are here on business and their business is recognizing talent and player development. Dinamo is recognized as one of the leading youth academies in Europe, second only to Porto in number of youth players sold to clubs through out Europe.
