

Summer football!

The NSW Premier League will resume in September of 2011 after the Board of Football NSW agreed to a recommendation put forward by representatives of the NSW Premier League Standing Committee to align the league season to the spring/summer period. Premier Youth League will remain aligned with the autumn winter season.

We asked a few players for their thoughts on the season change and they were generally positive.

Here is what Petar Markovic had to say: *"Personally I have no problem with it, I think it's a good thing and hopefully it will mean more people through the gate. I would have preferred that it started this year (2010) to avoid the break as some players may struggle with such a long break away from the game"*

The club supported the move as did the other PL clubs with some minor differences of opinion in regard to operations.
